

GRACE Science Data System Monthly Report

January 2012

Prepared by:
Frank Flechtner GFZ flechtne@gfz-potsdam.de

Contributions by:
Srinivas Bettadpur UTCSR srinivas@csr.utexas.edu
Mike Watkins JPL michael.m.watkins@jpl.nasa.gov
Gerhard Kruizinga JPL gerhard.kruizinga@jpl.nasa.gov

Approved by:
Byron Tapley UTCSR tapley@csr.utexas.edu

Highlights:

- CSR has generated and delivered RL04 Level-2 products for December 2011. Due to missing accelerometer data on both satellites in the first half of December, this model was derived with data from the period 12 December 2011 till 11 January 2012. Further information is available in the CSR L2 Processing Standards Document.
- CSR has generated and delivered RL04 Level-2 products for January 2012.
- GFZ has generated and delivered RL04 Level-2 products for November 2011. Due to missing accelerometer data on both satellites in the second half of November, this model was derived with data from the period 16 October 2011 till 16 November 2011. Further information is available in the GFZ L2 Processing Standards Document.
- JPL has generated and delivered RL04 Level-2 products for November 2011. Due to missing accelerometer data on both satellites in the second half of November, this model was derived with data from the period 17 October 2011 till 16 November 2011. Further information is available in the JPL L2 Processing Standards Document.
- JPL has generated and delivered RL04 Level-2 products for December 2011. Due to missing accelerometer data on both satellites in the first half of December, this model was derived with data from the period 19 December 2011 till 15 January 2012. Further information is available in the JPL L2 Processing Standards Document.
- A web page for the next GRACE Science Team Meeting (GSTM) which will be combined with the Final Colloquium of the DFG Special Priority Program "Mass Transport and Mass Distribution in System Earth" and which will take place on 17-19 September 2012 at GFZ in Potsdam/Germany is now available at <http://www.gfz-potsdam.de/portal/gfz/Neuestes/Veranstaltungen/Tagungen+und+Konferenzen/2012/GRACE+Meeting>.

Note that on September 20 2012 there will be a Sea Level Workshop. Further information will become available soon.

Satellite Science Relevant Events:

- Operations in Science Mode throughout the month except for the periods highlighted in the L1B Data Processing section below.
- The actual mission status can be monitored at http://www.csr.utexas.edu/grace/operations/mission_status/.
- The GRACE-1 Brouwer mean orbital elements on February 1, 2012 00:00:00 are as follows:
A [m] = 6826637.523
E [-] = 0.001388
I [°] = 89.007125
- The satellites separation was 203 km on January 31, 2012 with a rate of -1.07 km/d. An orbit maneuver will be needed end of February 2012.

Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:

GRACE-A Housekeeping:	100.0 %	GRACE-B Housekeeping:	100.0 %
GRACE-A Science:	100.0 %	GRACE-B Science:	100.0 %

Level-1 Data Processing:

- Level-1B Release 01 instrument data have been processed at JPL and archived at GRACE-ISDC and JPL PO.DAAC. Please refer to the statistics below.
- Notes:
 - None!
- KBR statistics:
 - A) KBR1B product name
 - B) Total arc length with data (hours)
 - C) Number of observations used in residual calculation
 - D) KBR-GPS range residual RMS (cm)
 - E) minimum KBR-GPS range residual (cm)
 - F) maximum KBR-GPS range residual (cm)
 - G) number of continuous segments in the KBR product

	A	B	C	D	E	F	G

KBR1B_2012-01-30_X_01.dat	23.8	17145	0.35	-1.4	1.2	2	
KBR1B_2012-01-31_X_01.dat	24.0	17280	0.43	-1.2	2.6	1	

Following JPL RL00 (yellow) and RL01 (green) L1B products are publicly available. June and July 2002 (red) are not provided due to accelerometer problems. See also comment in the Highlights Section. For January and June 2011 (blue) a significant number of accelerometer data

is not available (see corresponding newsletters).

[illegible]

- The L1B Read software has been updated to accommodate 64-bit machines but the software will also work on 32 bit machines. Please change RELEASE_2008-03-20 to RELEASE_2010-03-31 available at <ftp://podaac.jpl.nasa.gov/allData/grace/sw/>.
- L1B De-aliasing Products Status (for details see AOD1B Product Description Document):
 - Release 01: Generation has been stopped June 30, 2007.
 - Release 03: Generation has been stopped January 31, 2007.
 - Release 04: Generated until February 2, 2012 and extended to 1976-2000 (see newsletter for December 2008). Quality statistics for Release 04 products are online available at <http://www-app2.gfz-potsdam.de/pb1/op/grace/results> (follow link “GRACE Atmosphere and Ocean De-aliasing Statistics).
 - Following AOD1B products are publicly available (yellow: RL01, RL03 and RL04; green: RL01 and RL04, blue: RL04 only):

[illegible]

Level-2 Product Generation and Distribution:

- Besides historical CSR RL01, GFZ RL03 and JPL RL02 time-series (see below) and more experimental releases which are only available to the GRACE Science Team the following RL04 L2 products are presently available to the public (green: available, yellow: in preparation; red: missing due to accelerometer data problems):
 - **GFZ:** GSM solutions are available for August 2002 until November 2011. July 2004 until October 2004 and December 2006 are also available as constrained solutions (*GK2-*, reason is GRACE 4d repeat orbit and GPS anomaly on GRACE-B, respectively). October 2008 until September 2010 are also available as unconstrained solutions up to degree and order 60 (*GM60*, reason is GRACE 7d repeat orbit). Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

[illegible]

- **CSR:** GSM solutions along with the GAC and GAD background model files and calibrated errors (GSM*.txt) are available for the period April 2002 until January 2012. Details are listed in the CSR L2 Release Notes.

[illegible]

- **JPL:** GSM version 4.1 labeled “*JPLEM_0001_0004” along with the GAA, GAB, GAC and GAD background model files and calibrated errors (GSM*.txt) are available for the period April 2002 until December 2011. Details are listed in the JPL L2 Release Notes.

JPL RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05 containing C20 estimates derived from SLR and using GRACE RL04 standards is periodically updated.

Miscellaneous:

- The Proceedings of the 2011 Grace Science Team Meeting are online. See the Past Meetings link to the right at <http://www.csr.utexas.edu/grace/GSTM/>.
- The following acknowledgement shall be added to any new GRACE related publication (paper, poster etc.): *Acknowledgement: We would like to thank the German Space Operations Center (GSOC) of the German Aerospace Center (DLR) for providing continuously and nearly 100% of the raw telemetry data of the twin GRACE satellites.*
- A list of GRACE related publications which can be sorted by author or date is available at http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace_publications (current status: 864 papers). This list maybe still incomplete. If you are missing a publication please send an e-mail to Frank Flechtner (flechtne@gfz-potsdam.de).
- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC: <http://podaac.jpl.nasa.gov/grace/bibliography.html>.
